

WOJEWÓDZKI KONKURS JĘZYKA ANGIELSKIEGO

Teksty do zadania 1. – rozumienie ze słuchu

1.

I don't think I could live without technology. I use my phone all the time, not to mention my computer. These two things make it possible for me to stay in touch with my friends and keep up to date with the news. But I guess the most obvious advantage is the fact that I can search for and download music onto my phone. Imagine the life without that possibility.

2.

Well, I am not sure how I feel about technology in my life. On the one hand, it's a must, but on the other hand it's time-consuming. I often spend hours browsing through the Net for no real reason – news, YouTube, Facebook, you know. However, there is one thing about modern technology I like in particular – it's a digital photography! Digital photos are such good quality that they make you look like an expert photographer.

3.

My parents say I waste far too much time in front of my computer but I really want to learn computer graphics. I fell in love with it the first time I watched some computer-generated cartoons. I thought; "Wow!" I want to make films like that, so that's why I am interested in technology. I know what profession I want to follow!

4.

I'm a great fan of social networking sites. I spend a lot of time on Facebook. It allows me to stay in touch with my friends. I know I could phone them or meet them but using Facebook is cheaper and faster. However, the main attraction is the fact that being on Facebook makes you popular among peers. People who don't have Facebook accounts seem so uncool in my opinion.

5.

Well, technology is all around me so what choice do I have? First, I had to use a DVD player, then a laptop and now it's a smartphone. I don't want to look old-fashioned so I ask my grandchildren to help me learn how to use these new gadgets. My grandchildren are actually my inspiration. If they can manage to use all the new technology, so I can!
